Response Summary:

The Data Visualization Process

This self-assessment feedback instrument is designed to assess the following Knowledge Dimensions

A. Factual Knowledge	B. Conceptual Knowledge	C. Procedural Knowledge	D. Metacognitive Knowledge
The basic elements that students must know to be acquainted with a discipline or solve problems with it.	The interrelationships among the basic elements within a larger structure that enable them to function together.	How to do something; methods, inquiry, and criteria for using skills, algorithms, techniques, and methods.	Knowledge of cognition in general as well as awareness and knowledge of one's own cognition.

1. Student Information *

First Name	Gabby
Last Name	Willard
Course (e.g. CGT 270-001, CGT 270-LC)	CGT 270-LC4
Term (e.g. F2020)	Fall 2021

2. Email Address *

gwillard@purdue.edu

3. I can list the stages of the data visualization process. *

- Agree

3. List the stages of the data visualization process *

Acquire, Parse, Mine, Filter, Represent, Critique, and Refine (we never went over the Interact stage but it is still there).

4. I can explain the interactions between each of the stages. *

- Agree

5. I can demonstrate my ability to apply each stage of the visualization process to a given dataset. *

- Agree

6. I can discuss how output from one stage impacts other stages in the data visualization process. *

- Agree

7. Based on my *understanding* of the data visualization process, I can critique the process implemented to visualize data. *

- Agree

8. Based on my *experience* with the data visualization process, I can critique the output that results from applying the data visualization process. *

- Agree

9. What is the purpose of data visualization?(Use complete sentences) *

To be able to show the importance of data and the ways that it is changing by making a visualization to represent it. The visualization brings more meaning to the data if you can see what is going on rather than just looking at nothing but numbers.

10. Based on *my understanding and experience* with the data visualization process, I can determine the value of the visualization process. *

- Agree
